Who are we:

U–SPACE offers a wide range of **EASA APPROVED Drone (UAS) training** programs tailored to different operational needs. These courses are categorized based on regulatory compliance, operational complexity, and specialization.

U–SPACE is part of the Gulf Air Academy Group, which consists of the following divisions:

- 1. Drone Training Organization**

2. Pilot Training Division

3. Aviation & Engineering Department

4. Cabin Crew Training Center

- Over 40 years of experience with a multinational crew speaking more than 7 languages.
- The only flight academy located in the heart of Athens, Greece, featuring state-of-the-art facilities, materials, and training methods.
- Welcoming international students from all countries and nationalities, while providing full support throughout the training journey.

With both our headquarters and operations based in Athens, offering a high-quality educational experience, excellent premises, and a comfortable lifestyle for our students.

- Comprehensive support at all stages of training
- Transportation to and from the academy and airport during training
- Full English, Arabic, Greek, and multilingual support

Ready to unlock new career opportunities?

Enhance your skills in the rapidly growing drone industry!

Our **EASA-approved** drone training courses put you at the forefront of this revolution & offer comprehensive, hands-on education designed to get you certified, confident, and compliant with European aviation standards. Whether you're a beginner or an experienced operator, our expert instructors and cutting-edge training programs will prepare you for safe, legal, and professional **drone** operations across Europe & the entire World.
